SUMMARY

Experienced Lead Engineer with 8+ years in software development across GRC, E-commerce, AI-based platforms, and Satellite Communication domains. Proven expertise in building scalable applications from scratch using Java, Spring Boot, microservices, and cloud platforms with strong technical leadership and mentoring capabilities.

WORK EXPERIENCE

Hughes Systique Corporation | Lead Engineer

November 2022 - Present

- Led development of satellite communication applications (ECRF/LVF) from scratch with full-stack implementation
- Architected microservices using Java 17, Spring Boot, Docker, Kubernetes, and Helm charts
- Delivered mission-critical satellite communication solutions through cross-functional collaboration

Skills: Java 17, Spring Boot, Docker, Kubernetes, Helm Charts, Microservices

Publicis Sapient | Senior Associate Technology L1

September 2021 - November 2022

H&M E-commerce Platform

- Built H&M e-commerce application from scratch using OAuth authentication and Azure cloud services
- Implemented digital transformation solutions with Commerce Tools and scalable REST APIs
- Contributed to architecture decisions and technical implementation strategies

Skills: Java 11, Spring Boot, Oracle, Commerce Tools, REST APIs, Azure, Docker, Hibernate

MetricStream Infotech (India) Pvt. Ltd. | Member Technical Staff (MTS)

June 2018 - September 2021

- Developed critical GRC platform features including Multi-Dimensional Organization Structure and Business Rules engine

- Enhanced Internal Audit Security Package improving product security for major enterprise customers
- Optimized codebase for performance improvements and mentored junior developers
- Provided rapid QA issue resolution and customer support escalations

Skills: Java 8, Spring Boot, Oracle DB, SOAP/REST, Hibernate

RDAlabs LLC | Associate Software Developer

August 2017 - June 2018

- Developed AI-driven health analytics platform processing wearable device data (Apple Health Watch, Garmin, Fitbit)
- Implemented pattern recognition algorithms and built scalable backend services using Java and Apache Spark
- Worked with AWS cloud services and NoSQL databases for data processing

Skills: Java, Spring REST Services, AWS DynamoDB, Apache Spark, Oracle

EDUCATION

B.Tech Information Technology | Cochin University of Science and Technology (CUSAT), Kochi | 2017

TECHNICAL SKILLS

Programming: Java (8, 11, 17), Python | **Frameworks:** Spring Boot, Microservices, Hibernate

Cloud & DevOps: Azure, AWS, Docker, Kubernetes, Helm Charts | **Databases:** Oracle DB, DynamoDB

Tools: Git, JIRA, Maven, Apache Spark | **APIs:** REST/SOAP

Domains: GRC, E-commerce, AI/ML, Satellite Communication, Big Data Analytics

Soft Skills: Problem Solving, Technical Leadership, Mentoring, Cross-functional Collaboration

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Azure Fundamentals (AZ-900) - 2022

Mobile Analytics Internship - POKKT Pvt Ltd - 2016

Awards: Best Performance Award (Two Quarters) - MetricStream - 2019
